DAVID TON
PRIMARY EXAMINER

1. Claims 1-7 are allowed.

2. The following is an Examiner's Statement of Reasons for Allowance:

The prior art of record teaches the claimed invention substantially, but it fails to teach or suggest singly or in combination an error correction scheme for transmission of electronic data using an in-line error correction where there are no explicit wires for error correction code (ECC) bits using 0 to k wires, and symbols 0 to n, where information bits and symbols are sent along wires 0 to k. Before sending an information block along wires 0 to k, check bits are calculated from the information bits, wherein the check bits are made up of horizontal parity, extended parity and overall parity of the information. The check bits are then sent along wires 0 to k along the same wires as for the information bits. Finally, determining whether an error exists in the sent information using syndromes generated from the check bits and correcting error determined using the syndromes as set forth in independent claims 1, 2, 5 and 6.

3. Any comments considered necessary by applicant must be submitted no later than the payment of the Issue Fee and, to avoid processing delays, should preferably accompany the Issue Fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance".

4. The prior art of record and not relied upon is considered pertinent to applicant's disclosure.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to David Ton whose telephone number is (571) 272-3828. The examiner can normally be reached on M-Th from 5:30 - 4:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Albert DeCady can be reached on (571) 272-3819. The fax phone number for the organization where this application or proceeding is assigned is 571-273-8300.
